Allergen Statement

SPINIFEX PROTECT PTY LTD
ABN: 25 639 943 294

SPINIFEX Protect liquid and gel formulations contain no ingredients considered to be allergens.

SPINIFEX PROTECT Liquid / Spray formulation contains Ethanol, Lemon myrtle, Denaturing agent and plant based glycerine.

SPINIFEX Protect Gel formulation contains Ethanol, Lemon myrtle, Denaturing agent, plant based glycerine and thickening agents, Carbopol and T.E.A

In relation to Lemon Myrtle the no-observed-adverse-effect level (NOAEL) for lemon myrtle oil was calculated as 0.5 mg/l at 24 h exposure and the RfD (reference dose) was determined as 0.01 mg/l. A product containing 1% lemon myrtle oil was found to be low in toxicity and could potentially be used in the formulation of topical antimicrobial products.

The SPINIFEX Protect formulations contain .01% Lemon Myrtle and 90% lower than the concentration considered to be an allergen.
